For the online webinars we will be using a platform called **Slido**. For those of you who have not used this before, Slido is the industry-leading audience interaction platform. It helps users to get the most out of meetings and events by crowdsourcing top questions and engaging participants. You can post a question, and members can vote and move the question up/down in order of importance. This will be available from January 17 – 31 and will help us in creating an informative FAQ resource that will answer our memberships top questions.
