Dear Members;

Re: Maturn Motherhood Pilot Program

APBC and BCEHS are excited to launch a new pilot program designed to support mothers as they simultaneously navigate careers and parenting.

While every parent faces unique challenges in balancing a career and family, this program is currently being offered to members who identify as mothers in response to a study conducted in 2021; where it was found that mothers on average take longer parental leaves and faced more challenges when returning to work.

The program has 10 spots available and will give us insight into whether it should be introduced on a larger scale in our workplace. All members who identify as mothers and are parenting a child under 10 years of age are invited to apply.

Please see the attached [joint memo](#) and [FAQ document](#) for more details and how to apply.

Sincerely,

Jason Jackson
President
Ambulance Paramedics & Emergency Dispatchers of BC
CUPE Local 873
